Roberto Pincin (IT Consultant, freelance) – Business Number IT01167650322

Individual company in IT

Business owner with Business number

Helpdesk, Hardware sales, network design, congresses technical support, computer programming (delphi/pl-sql/oracle).

Important Works:

From 2011 till today I am a work member of the “developers team Genertel” (Generali Group), now I work with Indian Group Tata – TCS SPA and till 2015 with Gruppo Euris Spa company, for working in the Back-End of Genertel. From 2017 I’m doing also Managing activity for my team, as well as developer activity, Analyst, Release/Version Manager; the Official work language is English. Regarding Change Manager activity, I did quality check on the source code, since the deployment in the environment, all with software technology like WINCVS, SerenaDimension, BDMS, Jenkins tools, and after that I also teached this activity to other resources. During this period i worked in this Modules: Claims Manager, Data flows, INFOCAR, Bank payments. I worked as developer for the maintenance of the system, being an autonomous developer and technical analyst on the customer technology (Delphi and Oracle PLSQL). My helpdesk skills and systems engineer skills have been useful for the work team.

In December 2013 i worked a few days with ENAIP FVG as lecturer to complete a computer programming module for a classroom.

In 2013, I worked for a few months for ISCOPY srl of Trieste, for do some works into “Azienda Sanitaria Offices” and for give congress technical assistance into the “Area Science Park” congress center, and give technical assistance for computer classrooms.

From 2003 till today, I am giving computer assistance to private people and little companyes, and I am a business owner for me, using my Diploma knowledge and my pluriannual experience in business; I know very well the tax system in Italy.
